CAREER OBJECTIVE

Aspiring Software Engineer with a strong foundation in Java, SQL, Object-Oriented Programming (OOP), databases and Power BI. Passionate about developing real-world software solutions and creating interactive data visualizations and dashboards. Eager to apply my technical, analytical and problem-solving skills while continuously learning new technologies and contributing to organizational success.

EDUCATION

Mallareddy Engineering college	2027
B.Tech CSE - 8.23 CGPA	Hyderabad
Impulse junior college	2023
Intermediate MPC - 96.7%	Hyderabad
Kakatiya Techno School	2021
SSC - 10 CGPA	Medak

TECHNICAL SKILLS

- **Programming Languages:** Java
- **Web Technologies:** HTML, CSS, JavaScript
- **Frameworks:** Flask
- **Database:** SQL ,MYSQL
- **Business Intelligence:**
Power BI, DAX, Dashboard design
- **Tools:** Git, GitHub

PROJECTS

Virtual online voting System:

- Built a secure online voting platform using HTML, CSS, JavaScript, Python Flask and Firebase.
- Implemented Aadhaar-based user authentication and biometric fingerprint verification to prevent unauthorized and duplicate voting
- Developed responsive modules for voter registration, login, vote casting, and real-time election result management.
- Integrated secure backend services and database operations to ensure data integrity, transparency, and remote accessibility.

Rohit Sharma Performance Analysis Dashboard:

- Developed an interactive cricket analytics dashboard to visualize Rohit Sharma's career performance using Power BI, DAX, Power Query, Excel
- Created KPIs including Total Runs, Matches, Centuries, Half-Centuries, Strike Rate, and Average.
- Used Power Query to clean and transform match data.
- Implemented DAX measures to calculate batting statistics and performance metrics.
- Built interactive dashboards with slicers, filters, charts, and KPI cards.
- Enabled year-wise and format-wise (ODI, T20I, Test) performance analysis.
